PRESIDENT: Any further discussion of the amendment? Question is shall the Marvel amendment then be adopted. All those in favor vote aye, those opposed vote no. Voting on the second Marvel amendment here. Clerk will record.

CLERK: 26 Ayes and 0 Nays Mr. President.

PRESIDENT: Amendment is adopted. Once again, are there other amendments?

CLERK: Yes. Read.

PRESIDENT: Chair recognizes Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the legislature this amendment to 582 the two amendments that I refer too at this time, one amendment to section 49 which provides for \$49,000 pardon me \$83,000 to the Dental College to replace lost federal funds. When I first had the amendment drawn \$83,000 was proper but since that time it has been increased to \$120,000 but I didn't redraw the amendment. I think that this would perhaps be sufficient for them at this time. It does replace some federal money that we lost and I hope that the body will see fit to adopt the amendment. If they do I think that it is a very worthwhile amendment and it is worthy of consideration. Amendment to 51 provides \$200,000 for the resident program at the University of Nebraska. Now the reason for this amendment is that as you know we are graduating more students in the College of Medicine. We do not have enough residents programs established to take care of more than about half of those graduating in fact less than half. This will provide for 13 additional residences at the college of medicine. We are in a position here in Nebraska of training these young men and we spend \$50,000 to \$75,000 on their training and because we don't spend another \$13,000 to put them through a residency program for a year they need to go to another state and as of course as you know they very rarely come back to Nebraska. We have an instance in my own community where a few weeks ago we robbed another town of a young college of medicine graduate. He came to David City then and in the last few days I understnad that Nebraska City robbed him from David City, so it is a game of musical chairs as far as having enough of these men practicing medicine in the state of Nebraska. And I think that it is false economy not to provide the residence program for them. It is also in this same section that \$101,000 for the drug treatment program. I would move that that be adopted also. I am having these amendments copied and they will be in your hands shortly but this is what they do and I did place this on your desk yesterday.

PRESIDENT: Any further discussion of the Schmit amendment? Senator Kelly.

SENATOR KELLY: Mr. President, I respectfully request that we divide the question.

PRESIDENT: Senator Kelly has asked to divide the question. Senator Schmit, is that....

SENATOR SCHMIT: That is fine with me, lets vote on section 49 first.

PRESIDENT: Section 49 first? OK, Senator Proud did you wish to be heard on this issue. Senator Kelly asked that the question be divided here.
